REVIEW: QUESTION TYPES

1. Matching Information 2. Sentence Completion **3. Summary Completion** 4. Short Answer Questions/Multiple Choice 5. True, False, Not Given 6. Note Completion 7. Matching Headings 8. Diagram/Flow Chart 9. Identifying Information 10. Matching Features

Jidp **IELTS**

Questions 1–4

Reading Passage 1 has eight sections, A-H.

Which section contains the following information?

Write the correct letter, A-H, in boxes 1-4 on your answer sheet.

- 1 an explanation of the industrial processes that create potential raw materials for concrete
- 2 a reference to the various locations where high-rise wooden buildings can be found
- 3 an indication of how widely available the raw materials of concrete are
- 4 the belief that more high-rise wooden buildings are needed before wood can be regarded as a viable construction material

Questions 5-8

Complete the summary below.

Choose ONE WORD ONLY from the passage for each answer.

Write your answers in boxes 5-8 on your answer sheet.

Making buildings with wood

7 of solid wood are glued together to create building blocks. These blocks are lighter than concrete and steel but equal them in strength. Experts say that wooden buildings are an improvement on those made of concrete and steel in terms of the 8 with which they can be constructed and how much noise is generated by the process.

BASIC GRAMMAR: ARTICLES

Articles (a, an, the) are used to indicate whether a noun refers to something specific or non-specific.

Definite Article "the":

• Used before a specific noun that is known to the reader/listener.

Example: "I saw the cat on the roof." (referring to a particular cat and a specific roof)

Indefinite Articles "a" and "an":

- "A" is used before words that begin with a consonant sound.
- "An" is used before words that begin with a vowel sound.

Example: "I saw a cat beside an elephant." (referring to any cat, not a specific one)

"An" is used when the next word begins with a vowel SOUND, not necessarily a vowel letter. For example, "an hour" (pronounced as 'ow-er').

BASIC GRAMMAR: NOUNS (NOUN คำนาม ใช้เรียก คน สัตว์ สิงของ สถานที ทุกสิง ทุกอยา่ งในโลกน)

Countable Nouns:

 \circ These are nouns that can be counted as individual units.

Examples: book, cat, chair, table, student, car.

 \circ You can use numbers (one, two, three, etc.) and the plural form to express countable nouns.

- Example sentences:
 - "I have two books."
 - "There are five students in the class."

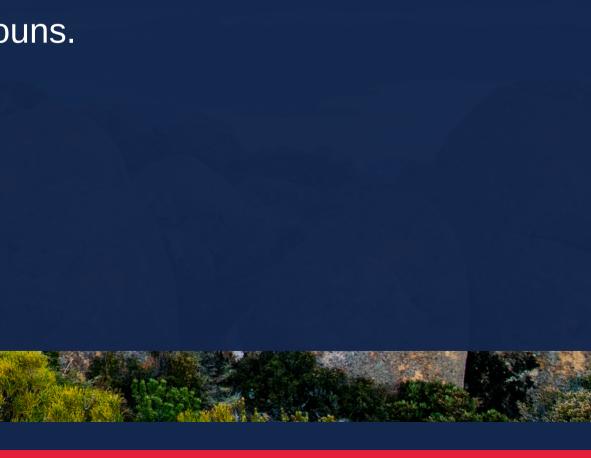

BASIC GRAMMAR: NOUNS (NOUN คำนาม ใช้เรียก คน สัตว์ สิงของ สถานที ทุกสิง ทุกอยา่ งในโลกน)

Uncountable Nouns:

- These are nouns that cannot be counted as separate units or entities because they represent a mass, substance, or abstract concept.
 - Examples: water, sugar, information, furniture, advice.
- You usually don't use the plural form with uncountable nouns.
 - Example sentences:
 - "I need some water."
 - "Can you give me advice?"

BASIC GRAMMAR: PRESENT ACTIVE VERBS (VERB คำกรยิาใช้บอกการกระทำของคำนาม)

Present simple: Subject + Verb 1 + Object

• There are several calculations.

Present Perfect: Subject + has/have + Verb 3 + Object

• Scientists have started innovating with other materials.

Present Continuous: Subject + is/am/are + V~ing + Object

• These technologies are promising ideas.

Present Perfect Continuous: Subject + has/have been + V~ing + Object

• Finland has been leading the way

BASIC GRAMMAR: PRESENT PASSIVE VERBS (VERB คำกรยิาใช้บอกการกระทำของคำนาม)

Present simple: Subject + is/am/are + Verb 3 + Object

• Several calculations are needed.

Present Perfect: Subject + has/have been + Verb 3 + Object

• Other materials have been innovated by scientists.

Present Continuous: Subject + is/am/are being + Verb 3 + Object

• These technologies are being promised.

Present Perfect Continuous: Subject + has/have been + being + Verb 3 + Object

The country has been being developed.

PART TWO: BASIC GRAMMAR

• Intransitive Verbs

BASIC GRAMMAR: TRANSITIVE AND INTRANSITIVE VERBS

• Transitive Verbs:

- Definition: A transitive verb is a verb that requires an object to complete its meaning. In other words, it needs a direct object to receive the action of the verb. • Example: "She read a book." In this sentence, "read" is a transitive verb, and "a book" is the
 - direct object that receives the action of reading.

• Intransitive Verbs:

- Definition: An intransitive verb is a verb that does not require a direct object to complete its meaning. It can stand alone in a sentence without needing an object. • Example: "He slept." In this sentence, "slept" is an intransitive verb. There is no direct
- object, and the verb conveys a complete thought on its own.

PART THREE: WORKSHOP

- Matching Information
- Summary Completion/Sentence Completion
- Short Answer Question

WORKSHOP: READING STRATEGIES

Read the note completion task instructions carefully: Understand what type of information you're required to fill in. It could be a summary, a chart, a table, or notes that need completion. Pay attention to word limits and the kind of responses needed (words, phrases, or numbers).

Identify keywords: Reading the questions and look for keywords or phrases in the questions or notes that correspond to the information in the passage. This will guide you to the specific section that contains the answers.

Paraphrase and synonyms: Answers might not be directly stated in the passage using the same words as in the notes. Look for synonyms or paraphrased versions of the keywords provided in the questions.

Scan for answers: Scan the passage for the relevant information. Read actively and look for matching words or synonyms. Be attentive to details, especially dates, names, and specific

READING

READING PASSAGE 1

You should spend about 20 minutes on Questions 1-13, which are based on Reading Passage 1 below.

Materials to take us beyond concrete

Concrete is everywhere, but it's bad for the planet, generating large amounts of carbon dioxide - alternatives are being developed

- Concrete is the second most used substance in the global economy, after water and one of the world's biggest single sources of greenhouse gas emissions. The chemical process by which cement, the key ingredient of concrete, is created results in large quantities of carbon dioxide. The UN estimates that there will be 9.8 billion people living on the planet by mid-century. They will need somewhere to live. If concrete is the only answer to the construction of new cities, then carbon emissions will soar, aggravating global warming. And so scientists have started innovating with other materials, in a scramble for alternatives to a universal commodity that has underpinned our modern life for many years.
- The problem with replacing concrete is that it is so very good at what it does. Chris Cheeseman, an engineering professor at Imperial College London, says the key thing to consider is the extent to which concrete is used around the world, and is likely to continue to be used. 'Concrete is not a high-carbon product. Cement is high carbon, but concrete is not. But it is the scale on which it is used that makes it high carbon. The sheet scale of manufacture is so huge, that is the issue.'
- Not only are the ingredients of concrete relatively cheap and found in abundance in most places around the globe, the stuff itself has marvellous properties: Portland cement, the vital component of concrete, is mouldable and pourable, but quickly sets hard. Cheeseman also notes another advantage: concrete and steel have similar thermal expansion properties, so steel can be used to reinforce concrete, making it far stronger and more flexible as a building material than it could be on its own. According to Cheeseman, all these factors together make concrete hard to beat. 'Concrete is amazing stuff. Making anything with similar properties is going to be very difficult.'
- A possible alternative to concrete is wood. Making buildings from wood may seem like a rather medieval idea, but climate change is driving architects to turn to treated timber as a possible resource. Recent years have seen the emergence of tall buildings constructed almost entirely from timber. Vancouver, Vienna and Brumunddal in Norway are all home to constructed tall, wooden buildings.

WORKSHOP: READING STRATEGIES

Skim the passage: Quickly skim through the entire passage to understand the main idea and the structure. Note the headings, subheadings, and any highlighted or bolded text, as these often provide valuable clues.

Scan for answers: Scan the passage for the relevant information. Read actively and look for matching words or synonyms. Be attentive to details, especially dates, names, and specific facts.

Questions 1-4

Reading Passage 1 has eight sections, A-H

Which section contains the following information?

Write the correct letter, A-H, in boxes 1-4 on your answer sheet.

- 1 an explanation of the industrial processes that create potential raw materials for concrete
- 2 a reference to the various locations where high-rise wooden buildings can be found
- an indication of how widely available the raw materials of concrete are
- the belief that more high-rise wooden buildings are needed before wood can be regarded as a viable construction material

Questions 5-8

Complete the summary below.

Choose ONE WORD ONLY from the passage for each answer.

Write your answers in boxes 5-8 on your answer sheet.

Making buildings with wood

Wood is a traditional building material, but current environmental concerns are ... to use wood in modern construction projects. encouraging 5 .. Using wood, however, has its challenges. For example, as 6 ... the atmosphere enters wood, it increases in size. In addition, wood is prone to pests and the risk of fire is greater. However, wood can be turned into a better construction material if it is treated and combined with other materials. In one process,

of solid wood are glued together to create building blocks. These blocks are lighter than concrete and steel but equal them in strength. Experts say that wooden buildings are an improvement on those made of concrete and steel in with which they can be constructed and how much terms of the 8 noise is generated by the process.

WORKSHOP: READING TECHNIQUES

Matching Information - check the context :

• Make sure the information you choose fits the context of the statement. Sometimes, a detail might match, but it may not be the correct answer because it doesn't fit the overall meaning.

Summary Completion - Consider paraphrasing:

• Be prepared for paraphrasing. The passage may express the same idea using different words. Look for synonyms or alternative expressions.

GRAMMAR CHECK

Students can complete this grammar homework and submit via email to thinkincafekk@gmail.com provided you have your Student ID in the email heading.

Zidp IELTS

Complete the following sentences by filling in the blanks with the appropriate articles (a, an, the), countable or uncountable nouns, and the correct form of the verb in the active or passive voice. Be mindful of the tenses (present simple, present) perfect, present continuous).

1. Yesterday, I bought new book and read it in hour. 2. There is _____ milk in _____ fridge. Could you please get _____ glass for me? 3. The experiment by the students last week was success. 4. The teacher impressed by students' progress in last month. 5. apple a day keeps doctor away, or so saying goes. 6. English ______ language that ______ students find challenging, but with practice, it becomes ______ valuable skill. 7. The assignment already completed by group of diligent students. 8. The new sports complex _____ built on _____ outskirts of _____ city is _____ example of modern architecture. 9. While we lunch, interesting idea by one of colleagues. 10. _____ article about ______ importance of recycling ______ in _____ newspaper yesterday.

Indicate whether the given verb is transitive (T) or intransitive (I).

- 1.She _____ her friend a letter.
- 2. The flowers _____ beautifully in the garden.
- 3. They ______ the new movie last night.
- 4. He his dinner quickly.
- 5. The cat _____ on the windowsill.
- 6.We _____ to the music all night.
- 7.1 _____ my keys on the table.
- 8. The sun _____ brightly in the sky.
- 9. The children ______ their homework after school.
- 10. The idea ______ to him suddenly.
